-Comp Fight Song

Any teacher can make students learn a lesson, or memorize mere facts. Not every teacher can make a student want to learn. Not every teacher cares enough to also teach these students to apply their lessons, to life as well as their school-work. To do this, this teacher must be worthy of his students' respect and of their friendship. Any student is lucky to develop this relationship with a teacher during his or her years here at Chicopee Comp. A teacher with these qualities increases learning potential and adds to the many special memories that each graduate takes with them when leaving Chicopee Comp. One teacher has meant all of this and more to many members of the class of nineteen eighty-nine. He has shared his diverse and interesting life's experiences, from his military service to his years spent living in Japan, to enrich his students' lives and to broaden our horizons to worlds outside of Chicopee. He has become a trusted friend and confidante to many of his students because of his understanding of and concern for them. Over the last four years the class of eighty-nine has developed an appreciation for this outstanding educator. Therefore *Me-mini Nineteen Eighty-Nine* is dedicated to Mr. Roger Fleury. Thanks for the (squawk!) memories.

In appreciation for all of the hard work, dedication, and kindness added to his teaching, **Memini 1989** and the class of nineteen eighty-nine would like to thank Mr. Roger Fleury for making our four years at Comp that much more special.

## MEMINI 89-THE LIFE OF OUR TIMES

During a student's years here at Chicopee Comp, he or she develops a distinct social and educational life here. Most of the memories of this life spent here are good ones, hopefully. This yearbook tried to capture for you the good parts of this- the life of our times here. And, we're sure you'll agree, it's been a busy life, hasn't it?

Through our years here at Chicopee Comp we watch ourselves and our fellow classmates mature from the silly Freshmen they start out as into more mature, responsible people. This is a part of life. But that doesn't mean we can't still have fun.

Who, ME?

Hey, look at that cute guy over there!

English, it's not just a requirement, it's an adventure

¿Que pasa?

Okay, now hand me the rubber band

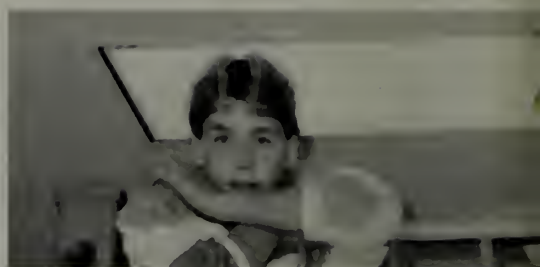

Now if I could just remember what I came here for

Hangin' around with cheerleaders can be an uplifting experience

And for my next trick

HOW did I forget about that

English test next period?!

I want my two dollars!

Cheerleader wanna-bees?

## JUNIORS

Going into school this year with only two years left was a real shocker for the Junior class. The old sophomores, soon to be Seniors, were finally upperclassmen. Our advisors and class officers got us busy early this year with the annual magazine sale. The sale turned out to be a success. Then the first rally, the fall sports rally, finally arrived. This was a surprising new experience for the Juniors because we finally made it to the other side of the gym.

Soon after there was talk in the Junior classrooms about the P.S.A.T.'s. The dreaded Saturday soon arrived and everyone was generally nervous. At the end of the test everyone was relieved but uncertain about how they did. After this Junior social activity died down for a while save for various meetings and weekly dances. On November 4, the Junior dance was held. This year's theme was the 50's era. Everyone dug up their best 50's get up and came down to the Comp gym. The dance was a general success and brought needed funds to our class trea-

surey.

Veteran's day weekend was a busy weekend for the Junior class. On November 10, the Juniors entered the Powder Puff cheerleading competition, which they won by a score of 102 to 82. That Saturday, the 12th, the Juniors introduced the Pancake Breakfast, another great success for our class. On Sunday, November 13th, our class was represented in the Powder Puff football game, which was convincingly won by the Seniors, by the score of 14 to 7.

Last spring our class started making plans for the event that, to most Juniors, is the ultimate social event of the year, the Junior Prom. This year our Prom is being held at the Northampton Hilton, and it is sure to be an occasion that will be remembered for the rest of our lives. We close with the Promise that the best year is yet to come.

MICHELLE POULIN:

For the class of '91, Sophomore year proved to be a time of change because it was a year of acceptance in the high school mainstream. The class officers along with their advisors spent much of their free time making our Sophomore year a year to remember. The class' first major responsibility was to raise money for their class dues. They helped pay the first of 3 fifty dollar payments by organizing a "Walk - A - Thon." This was a twenty kilometer hike around Chicopee. The "Big" event for Sophomores was the class ring sale because getting our class rings symbolized acceptance in our school. As always, there was a Sophomore class dance to raise money for our class

expenses, and it also gave members of our class the opportunity to help their class directly while having fun. This year's sophomore class proved to be a great one thanks to our officers, advisors, and fellow classmates. Junior year proves to be even better.

## FRESHMEN

Freshman year was an exciting change. There were many differences from Junior High, some examples of which were: dances every week, going to school sports events, upperclassmen, and being able to get involved in our school. Some of the activities we could now participate in were Band, Color Guard, Student Council, Drama Club, Sports, and the Debate Team.

One of our new experiences was having a home coming princess. This year our homecoming princess was Stacy Bruneault. There was also a Halloween Dance, where some Freshmen did get prizes for their costumes. Speaking as a Freshman, I think everyone is looking forward to an even better Sophomore year.

Your parents gave you the best that they possibly could in this complex world. The staff at Chicopee Comprehensive High School offered you many opportunities to develop yourself as an individual to face the many difficult choices and challenges that will confront you.

Leap toward your next decade of growth with enthusiasm curiosity and with the search for improving your total environment. Pursue your goals and objectives with a positive and realistic attitude. Your generation will be on the threshold to reap the benefits of many medical and technological services that many never dreamed of or thought humanly possible.

Continue your desire to excel in your field of interest. Good luck and happiness to each of you.

Sincerely yours,

To the Class of 1989

I am very honored to have the opportunity to extend my congratulations to the class of 1989. You have spent four years in high school and now have graduated, but remember, your education does not stop. Life itself is an education. I hope that all of you have learned your lessons well from Chicopee Comprehensive High School. We have attempted to instill many basic ideals in each and every one of you, such as: honesty, hard work, acceptance of responsibility, respect for our country, and fellow person. If you live by these ideals you will certainly be successful.

I wish each and every one of you good health, happiness, and many years.

May God bless you all.

The result of great teaching!

Science at Chicopee Comprehensive High School is a challenge to all the student body and to the future. From the vocational studies to the pure science of chemistry, there is a general need for all students to learn a little more about themselves and the environment that surrounds them.

The more we study in Physical Science, Biology, Chemistry, and Electronics, the more scientific spin-offs become applicable to our daily lives. There is not one life-style that is not touched by some scientific application.

The present courses are constantly being up-dated and up-graded by the members of the Science Department and curriculum staff. We will meet the challenges of the 90's and the 21st century. The courses offered encourage reading and writing skills, scientific interpretation and vocabulary within the subject area to provide a well-rounded academic background.

The students here at Comp have the greatest opportunity in the world to place their foot on the ladder of success. The Science Department is dedicated to the progressiveness to better equip the student and graduate to attain a place within the academic and scientific community of their choice. Let us take the first step and keep on going to reach our goal into the 90's and 21st century.

SOCCER, #1? You bet!

THE 1988 BOYS' SOCCER TEAM concluded its regular season with a perfect 12-0-4 record. This is the first time in Comp. history that a team has gone undefeated. The season was filled with exciting moments: our come-from-behind tie against Ludlow and domination of Cathedral. The team was held together by our friendships on and off the field and our "NEVER SAY DIE" attitude. But most importantly, we were fortunate enough to have a coach who cared about us and believed in us. This season will rest in the mind's of the player's, the coach, and the school for many years to come. Thanks for all the memories.
